The material used is food grade silicone material. It is free from colour pigments, approved by FDA (FDA 21 CFR 177.2600.) and meets EU's regulation EU 1935/2004.(FDA approved). The cup is soft and pliable and can operate at a wide temperature range.

- The silicone material complies with FDA 21 CFR 177.2600 & EU 1935/2004.
- Suitable for flat objects.
- Good stability and little inherent movement.
- Recommended when the lifting force is parallel to the surface of the object.
- Cleats prevent thin, sensitive objects from being deformed and gives extra friction when the lifting force

is parallel.
